***The 1976-77 Buffalonian Is
Dedicated to***

Mr. William Ball

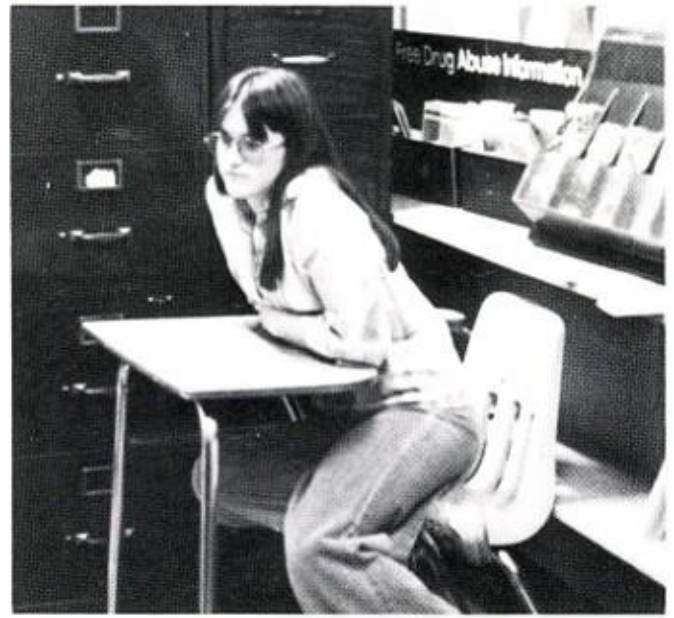

Friend . . . Counselor . . . Helper

Mr. Ball has been a friend to all students, past and present of Buffalo High School. Whenever anyone has a problem he's always got an ear to listen, and a heart that cares. He's always ready to listen but never ready to gossip.

If a student has a problem in or out of school he is ready and willing to try to help. He helps students get summer jobs, or pick the right college.

For all these reasons and many more the Buffalo High School Annual Staff would like to dedicate the 1976-1977 yearbook to our friend Mr. William Ball.

Happy

Sad

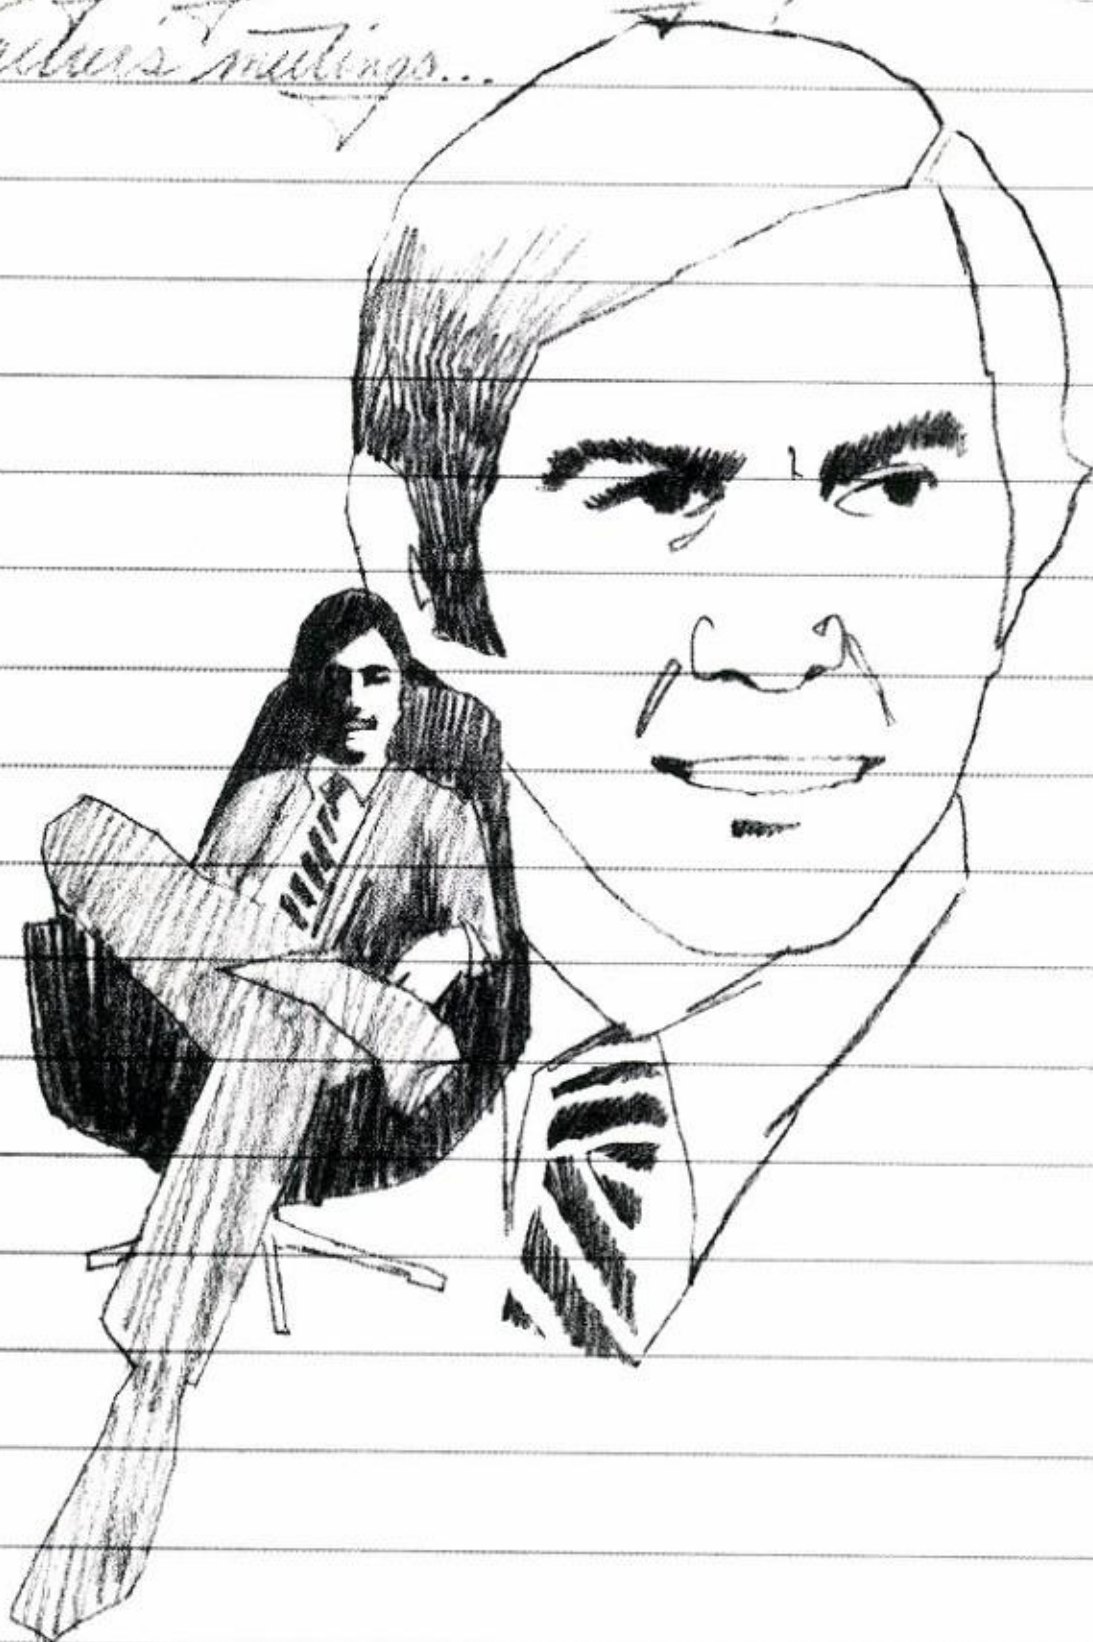

Do you know where you're going to?

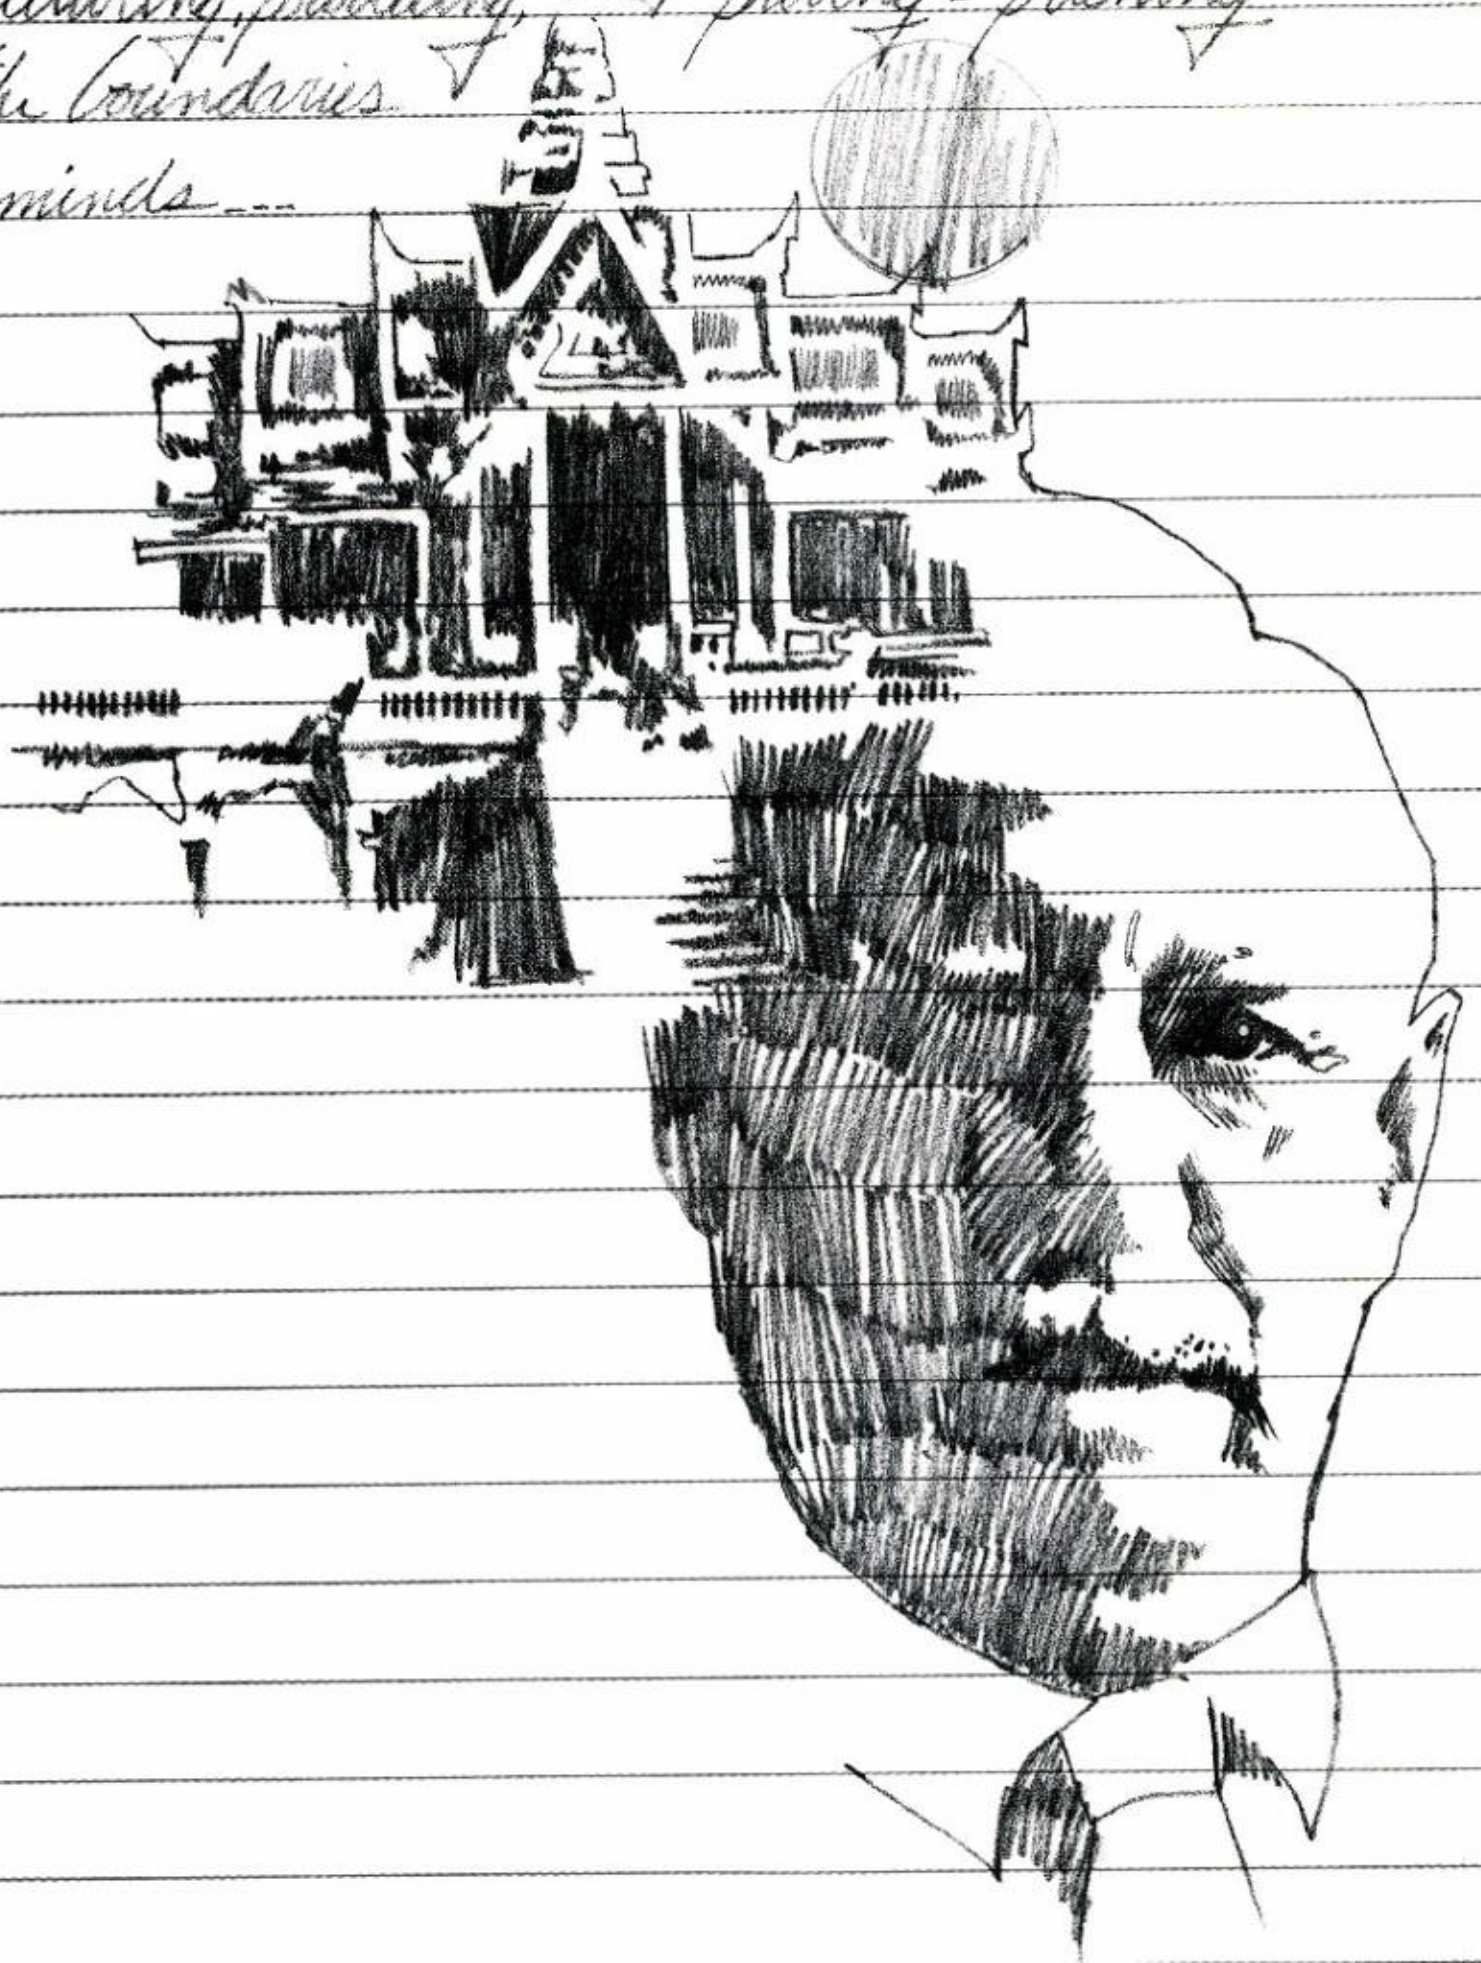

Administration

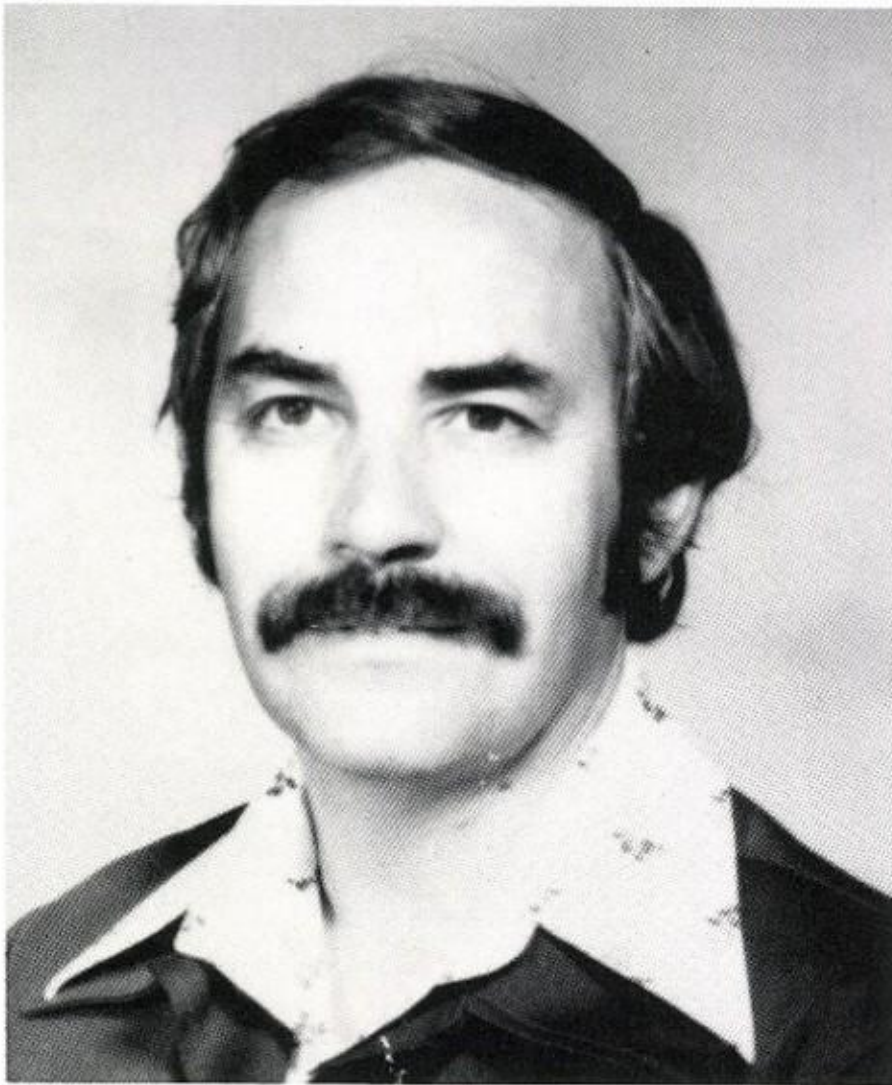

first-period announcements over the P.A. system-
taking time to talk with students-conferences
with parents-conferences with teachers-confer-
ences with school officials-keeping the red tape
under control-answering steady streams of phone
calls-turning the wheels that keep the "machinery"
of school life going-and heading up those sad
morning teachers' meetings...

Faculty

faraway places and new ideas - brought right
into the classroom - "read the next fifty pages
for tomorrow" - conferences after class - a pop quiz
on the only day you didn't read the assign-
ment - teaching us something in spite of our-
selves - lecturing, prodding, + probing - pushing
back the boundaries
of our minds ---

the Challenge

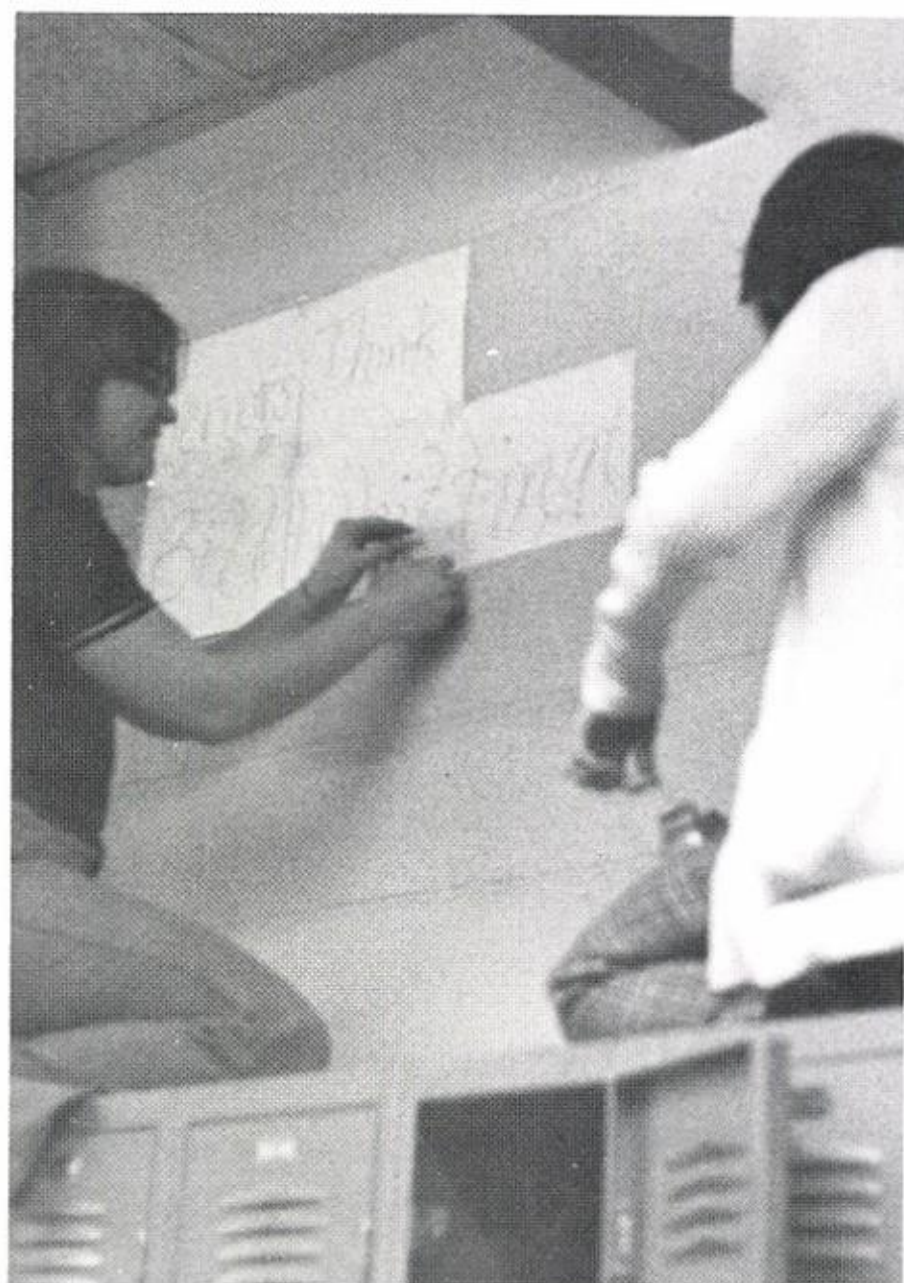

From the atom to the sun... the universe pulsates with energy in many forms.

The challenge is to find ways... new ways... to utilize the earth's vast storehouse of fuels in providing the energy needed for this nation to continue to be great.

The means — innovative technologies, exotic engineering, dynamic architecture — exciting advances that must come if man is to tap Nature's lode for the energies he needs.

From the smallest part of the universe to the largest... that's the scope of the energy field today. The opportunity for personal achievement is infinite; the challenge, one that must be met.
